

OUR COMMITMENT

We are committed to providing an excellent curriculum in a safe and secure setting where children receive a positive learning experience.

Our low teacher-to-child ratio will allow each child to benefit from the exceptional individual attention.

We are committed to respecting the individual strengths and abilities of each child and we embrace their unique nature and guide them as they develop into confident and successful young people.

Finally, we are committed to respecting and honoring your role as the parent, and working with you hand in hand, to ensure that your child is constantly nurtured and protected.

CHILDREN AND
FAMILIES COME
FIRST!**

OUR MISSION

At the Armenian Sisters' Academy Day Care Center children embark on their life-long journey of learning and growing.

Through fun-filled programs and activities, children develop their cognitive, language, motor and social skills and build a remarkable self-esteem.

The center offers a safe, secure and nurturing environment where experienced and licensed professionals provide individualized attention to each child.

At our center, we provide daily, a series of different activities that stimulate the mind and help children develop their learning skills as well as their social skills.

Even playtime is designed in such a manner as to help children learn cooperation, sharing and respecting each others needs and feelings.

As a parent you will love watching your child gain confidence, self esteem and a

love of learning, setting the stage for the next phase in life — preschool.
